

Anthropology and Archaeology Minor

An Anthropology and Archaeology Minor complements many majors, such as:

- ✦ History of Art
- ✦ Architecture
- ✦ City & Regional Planning
- ✦ Landscape Architecture
- ✦ Civil & Environmental Engineering
- ✦ Geography
- ✦ Comparative Studies
- ✦ Environmental Science
- ✦ Biological Sciences

Courses available for the minor:

- ✦ Paleontology
- ✦ Introductory Mineralogy
- ✦ Introductory Petrology
- ✦ Paleontology
- ✦ Stratigraphy and Sedimentation
- ✦ Geomorphology
- ✦ Glaciers and Landscapes

School of Earth Sciences
275 Mendenhall Laboratory, 125 South Oval Mall

www.earthsciences.osu.edu

An Anthropology and Archaeology minor through the School of Earth Sciences will supplement your B.A. or B.S. degree in almost any field.

The minor consists of two prerequisite courses plus 20–25 hours of course work, forming a coherent program. The defined minor is described below, but other courses can be substituted with School permission.

For more information, contact:
Dr. Anne E. Carey
Associate Professor, School of Earth Sciences
carey.145@osu.edu

With this minor, students will have critical knowledge and hands-on experience to participate successfully in many public, private and international career opportunities such as:

- ✦ Forensics
- ✦ Government research
- ✦ Environmental consulting
- ✦ Oil and natural gas exploration & production
- ✦ Museum curator
- ✦ Education
- ✦ Park ranger
